Pair Chicken with All Things

PICKLE

In a surprising turn of events, what might possibly be our biggest food trend of 2023 has been hiding in plain sight all along. Somehow, our common, average dill pickles have risen from their assigned, well-accepted space in grocery store aisles, restaurant coolers, and home pantries, and turned into the hottest trend of the year. So... how did that happen?

Learn more about the rise of the pickle trend by visiting brakebush.com/trends or scan the code below!

Be a part of the pickle craze now by adding
tasty chicken to your creations!
